DESIGN

Cricket Pants are made from medium weight polyester. It is complimented with spandex to allow free movement stretch to the traditional hard wearing polyester material, which means they are perfect for sliding in the outfield. Like the shirts, they can be made in traditional white or sublimated to the customers' requirements. These are offered fully sublimated or with breathable mesh panels sewn in complimented with flat Lock or 3D stitching detail. We can supply cricket pants to you without the legs being hemmed so that your players can adjust them to best suit their own requirements. We can manufacture cricket tops and pants produced from our patterns and incorporate your design and logos.

CYCLING - BIB

FEATURES

1. Lycra material.
2. Elastic interface.
3. Reflective detailing.
4. Mesh bib straps.
5. Silicone leg gripper.

ORDER CODE
JP158BS

INFORMATION

This set of cycling bib shorts combine a flexible fit and breathable surface to craft a comfortable cycling accessory that help to drive performance.

The bib shorts are constructed using Lycra, which offers a fully flexible design allowing a wide range of movement when riding, granting an exceptionally comfortable fit that is supportive without being restrictive.

This design is further bolstered by the addition of 'Elastic Interface', a padding system integrated within the base of the bib shorts that grants an unequalled level of comfort. Together with silicon elastic leg cuffing and moisture wicking fabrics this garment is really easy to justify.
